AGRICULTURE EXTENDED LEARNING GARDEN BOX

The clay soil in this garden has been dug over, burying spent plant materials. The next job is to spread straw/manure over the soil surface.

The clay soil in this garden has been dug over, burying spent plant materials. The next job is to spread straw/manure over the soil surface.
© Desiree Jans, Dalhousie.

Plants are growing in the garden. The soil is dark and rich. The plants are green and healthy. The garden is well-maintained and the plants are growing well.

Water is being used to water the plants. The water is being poured from a watering can. The plants are being watered regularly and the soil is kept moist.

Case study

The garden is a success story. The plants are growing well and the soil is rich. The garden is well-maintained and the plants are growing well. The garden is a success story and the plants are growing well.

The garden is a success story. The plants are growing well and the soil is rich. The garden is well-maintained and the plants are growing well. The garden is a success story and the plants are growing well.
